

Overview

The RoseRyan dream team of finance virtuosos tackles critical assignments for companies at all stages. They'll morph into key players on your finance team, prepare you for IPOs and M&As, perform immaculate corporate governance work and provide expert advice on never-ending rule changes. And that's not all—they'll steer you past land mines and help you see what's around the corner. They're our employees, but they function like your employees.

RoseRyan consultants typically draw on 15+ years' experience, including Big Four and corporate finance stints. Whatever your problem is, chances are one of them has solved it. One more thing: they're consultants because they want to be, not because they need a paycheck until a "real" gig comes along. That means you get someone who loves their job—and has the chops to do it right.
